Engaged time

The *California Driver Info* screen displays.

A graph of engaged time can be displayed bi-weekly or quarterly.

Engaged time is measured from the time you accept an offer to completion of delivery.

California Health Care Subsidy

Each quarter, a health care subsidy may be available to drivers in California.

Drivers who average at least 15 hours of engaged time per week in the quarter will be invited to submit proof of qualifying health insurance coverage.

How it works

Engaged time

- If you average 15 hours or more of engaged time per week in California during a calendar quarter, you will be invited to submit proof of qualifying health insurance coverage.

Health insurance

- You may submit proof of qualifying health insurance documents during a 15-day period at the beginning of each quarter.
- Proof of qualifying health insurance documents may be a health insurance card or policy document that meets these requirements:
 - You are the primary policyholder/subscriber
 - The policy is not a government or employer sponsored plan (a government-sponsored plan includes Medicare/Medicaid/Medi-Cal)
 - The policy is active for that calendar year.
- If your plan qualifies and you've averaged 15 or more hours of engaged time per week during the calendar year:
 - You'll receive 50% of the subsidy if you average at least 15 hours of engaged

PREVIOUS

DONE

- You'll receive the subsidy within 15 days of the end of the calendar quarter or within 15 days of the proof of enrollment submission, whichever is later.
